Spiritual development is concerned with developing the non-material aspects of life, focusing on personal insight, values, meaning and purpose. Beliefs that help provide perspective on life may be rooted in a religion, but equally may not. Children explore the fundamental British Value of exploring and respecting the values and beliefs of others.

Our provision should enable children to:

It's also about personal and societal values, understanding the reasons for them and airing and understanding disagreements. Children develop the fundamental British Value of investigating moral values and ethical issues, and recognising and applying right and wrong.

Cultural development is about understanding and feeling comfortable in a variety of cultures and experiencing a range of cultural activities (for example art, theatre, travel, concerts).
