

# Our Senses

## Overview:

In this Science topic we will be learning about our bodies and our senses. We will learn the names of parts of the body that we can see and we will learn about the five senses. We will learn to match the sense with the body part that it associated with.

### What I already know...

I know the names of parts of the body.

### By the end of this unit...

I will be able to name and label parts of the body using the correct words.

I will be able to identify and name the five senses.

I will be able to explain how we use our senses to keep ourselves safe.

I will be able to observe different object using all five senses.

I will be able to record my observations in different ways.

### Key Vocabulary

ears	eyes	tongue
nose	skin	taste
smell	touch	hear
	see	

### Key Questions

Do all humans have the same body parts?

How do we use our senses to find out about the world around us?

Which parts of the body do we use when we are using our different senses?

How do we use our senses?
