

Tent Structures

Overview:

In this topic we will be exploring what a structure is. We will learn about what they are used for and how they stand. We will then explore different structures used for a tent. We will discover what the best material is to use to make a tent structure and design and build a tent.

What I already know...

I know how to build out of construction.

I have been to a park and used different equipment.

By the end of this unit...

- I will learn what a structure is and I will explore different structures.
- I will learn what makes a good structure and what materials are best to use.
- I will design my tent structure.
- I will make my tent structure.
- I will evaluate my tent structure.

Key Vocabulary

Structure strong materials join shape tent

Different tent structures

Key Questions

What is a structure?

What is a tent used for?

What structures make a tent?

How does a structure stand?

What materials are strong to use?

How is a structure made?
